Hi Jennifer & David- Maria Hegstad sent the following inquiry this afternoon.

Deliberative Process / Ex. 5

Incoming from Inside EPA:

"I noticed in the "Questions for the Record for Mr. Andrew Wheeler" document that it appears that the formaldehyde IRIS assessment has been halted because it "Formaldehyde was not identified as a top priority" for IRIS assessment by EPA program offices (see page 95). I'm told that the formaldehyde IRIS assessment has been handed over to OPPT, which will conduct an assessment of formaldehyde as part of the TSCA program for existing chemicals. I have also heard that the American Chemistry Council requested that OPPT include formaldehyde in the upcoming batch of chemicals OPPT selects for the next prioritization process. Can anyone there comment on status of the formaldehyde IRIS assessment, and whether ACC requested OPPT include formaldehyde in the next list for prioritization?

Draft response:

Deliberative Process / Ex. 5

Let us know if you are okay with this.

Thanks,

Megan
